PROJECT FACT SHEET

LITTLE MILL CREEK, GRAVEL RUN, UPPER SOUTHAMPTON BUCKS COUNTY, PA

March 2005

CONGRESSIONAL INFO: Sen. Santorum PA, Sen. Specter PA, Rep Fitzpatrick PA-08.

AUTHORITY: Section 205, Flood Control Act of 1948, as amended; Flood Damage Protection.

LOCATION: The study area is situated along Little Mill Creek, part of the Neshaminy Basin in eastern Bucks County, Pennsylvania--- north of Philadelphia, Pa.

STUDY/PROJECT DESCRIPTION: The study is investigating flooding problems experienced in this portion of Upper Southampton Twp. The study will consider all sources and causes of flooding.

STUDY/PROJECT STATUS: The Feasibility study phase is underway. While both structural and non-structural alternatives are being evaluated, non-structural alternatives including various flood-proofing techniques to reduce or prevent flood damage to vulnerable properties appear to be the only viable alternatives.

ENVIRONMENTAL STATUS: An environmental assessment will need to be prepared.

SPONSOR: Upper Southampton Township

PROJECT MANAGER: Bill Mulloy
